- Ideal for flower beds, paths and lawns

RAINPROOF AFTER 2 HOURS

Use weedkillers safely. Always read the label.
roundup-garden.co.nz

Kills weeds, unwanted grasses and vegetation in home garden areas.

ACTIVE INGREDIENT: 360g/L GLYPHOSATE present as the isopropylamine salt in the form of a soluble concentrate.

PRECAUTIONS: READ LABEL BEFORE USE. AVOID RELEASE TO THE ENVIRONMENT. Store in original container, tightly sealed away from foodstuffs and children. Avoid contact with eyes and avoid breathing spray mist. Wash hands after use. DO NOT allow pets and children to enter the treated area until the spray has dried. DO NOT allow spray to contact or drift onto plants (including turf grass) you do not want killed. If sprayed, cut off leaves or wash with water immediately to avoid injury. DO NOT allow chemical containers or excess spray to get into drains, sewers, streams or ponds. DO NOT spray directly onto humans, pets, exposed food, food preparation areas or food utensils.

FOR EMERGENCIES ONLY CALL NZ 0800 734 607 (24 HOURS)

FIRST AID: If poisoning occurs, contact a doctor or NZ Poisons Information Centre: 0800 764766.

HOW TO USE: DO NOT allow spray to contact or drift onto plants or grasses you do not want killed. • DO NOT treat if rain is likely within 2 hours. • DO NOT DISTURB treated plants for 7 days after treatment. • DO NOT use prior to transplanting tomato seedlings.

APPLICATION METHOD	WEEDS CONTROLLED	RATE	HOW TO APPLY
Leaf Spray	General mixed weeds Annual/Perennial weeds	10mL per 1L water	TIMING: Apply when weeds are actively growing. For best results on perennial weeds, treat after flowering. Treat woody weeds from flowering to leaf fall (Jan-May). DO NOT spray plants bearing edible berries. APPLICATION: Uniform and complete spray to wet leaves. Run off should not occur. The addition of a non-ionic surfactant is recommended.
	Woody weeds	15mL per 1L water	
	Annual weeds (small)	5mL per 1L water	
Wiper	Annual/Perennial weeds	One part plus two parts water	TIMING: As above. APPLICATION: Ensure wick is wet. Wipe as many leaves of the weeds as possible.
Stem Injection	Unwanted Trees	Undiluted	TIMING: Anytime trees are actively growing. APPLICATION: Drill holes or make cuts to penetrate sap wood at 45° angle every 10cm around trunk. Inject 1mL into each hole or cut.
Cut-Stump	Unwanted Trees/ Bamboo	One part plus six parts water	TIMING: Anytime trees or bamboo are actively growing. APPLICATION: Cut tree close to the ground and immediately wet the cut surface using spray, swab or paint brush. BAMBOO: Cut back to 20 cm, pour mixture down hollow stem or wet cut surface.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.

HOW TO PREPARE: Mix this product with clean water. Use only plastic lined brass, copper, fiberglass, aluminium, plastic or stainless steel containers for mixing and application. DO NOT mix more than can be used within 5 days. Wash out spray equipment thoroughly after use.

STORAGE & DISPOSAL: Store in the closed original container in a cool, dry place out of the reach of children. DO NOT store in direct sunlight. Dispose of this container only according to the label or at an approved landfill, but ensure adherence to local regulation. Triple rinse empty container and add residue to spray tank. Dispose of empty container by wrapping in paper, placing in a plastic bag and putting in the garbage.
